Dear [Hiring Manager's Name],

I came across an opportunity that closely aligns with my profile and experience in QA leadership and automation. With over 10 years in Software Quality Assurance—currently serving as an SQA Engineer-3 at SIXT R&D—I bring deep expertise in API/UI/mobile automation, test framework development, and regulatory compliance (GDPR, DAC7, CCPA).

I've led test efforts across Agile environments using tools like Selenium, Rest Assured, Playwright, and Appium, while driving CI/CD adoption via Jenkins, Docker, and Kubernetes. My hands-on contributions have helped reduce deployment issues by 30% and increase automation coverage by over 50%.

I am available to join with a 2-week notice and would welcome the opportunity to connect further.

Please find my resume attached. I look forward to hearing from you.

Best regards,
Saurabh Garg
